Cisco Webex Room 70 is the flagship video collaboration product within the Cisco Webex Room Series portfolio. The Room 70 is available in two configurations: Room 70 Single (70S) with one 70" LED screen for a people-focused experience, and Room 70 Dual (70D) with two 70" LED screens for a people-focused and people/content-focused experience. The systems combine beautiful design and powerful functionality into an all-in-one solution for medium-to-large rooms. Room 70 will transform your meeting spaces into a video collaboration hub - whether for connecting teams across the globe or for local meetings.

Cisco Webex Room 70 overview

Cisco Webex™ Room 70 delivers the unmatched video and audio experience customers have come to expect from Cisco. In addition, new capabilities enable even smarter meetings, smarter presentation capabilities, and smarter room and device integrations - further removing the barriers to usage and deployment of video in medium to large-sized rooms.

The Room 70 - comprising a powerful codec, a quad-camera, and 70" single or dual 4K display(s) with integrated speakers and microphones* - is ideal for rooms that seat up to 14 people. It offers sophisticated camera technologies that bring speaker-tracking and auto-framing capabilities to medium to large-sized rooms. The product is rich in functionality and experience but is priced and designed to be easily scalable to all of your conference rooms and spaces - whether registered on the premises or to Cisco Webex in the cloud.

*Integrated microphones for speaker tracking only

Cisco Webex Room 70 features and benefits

Feature	Benefit
Design Features	<ul style="list-style-type: none"> • One of the most powerful and feature-rich video systems available with the ultimate in video and audio quality • The next generation HD video collaboration codec • The next generation HD fully automatic camera • Everything you need in one unit (screens, speakers, codec, camera, touch user interface, microphones, mounting) • Wall-mount or floor stand (2 floor stand options included: Freestanding and wall-secured floor stand)
Smart meetings	<ul style="list-style-type: none"> • Brings intelligent views to medium to large-sized rooms with discreet, integrated cameras <ul style="list-style-type: none"> ◦ Best overview: Automatically detects meeting participants and provides ideal framing ◦ Speaker tracking: Detects and switches between active speakers and provides ideal framing • Great audio experience with integrated speakers and external microphones • Automatic noise suppression reduces disruptive sounds coming from the meeting room (e.g., typing, paper rustling) • Simplified meeting-join experience with One Button to Push (OBTP) for scheduled devices in a Cisco Webex meeting, whether registered on-prem or to Cisco Webex • Automatic wake-up: System “wakes up” when someone walks into the room, and recognizes them through their mobile device • Easily controlled by the Cisco Webex Room Navigator control unit or with the Cisco Webex app • End-to-end security
Smart presentations	<ul style="list-style-type: none"> • Supports dual screens for video and content • Supports dual content sources for local meetings • View whiteboard content and annotations shared from Cisco Webex Board, Cisco Webex Desk Pro, or Cisco Webex app; participate in white boarding sessions through Cisco Webex app* • 4K content sharing (local 30 fps; remote 5 fps) • Wired or wireless content sharing
Smart rooms	<ul style="list-style-type: none"> • Metrics: Counts people in the room, enabling analytics for better resource planning • Supports Wi-Fi • In-room control: Control peripherals such as lights and blinds through the Cisco Webex Room Navigator
Built for cloud and premises	<ul style="list-style-type: none"> • Flexibility to register on the premises or to the cloud through Cisco Webex • Hardware is optimized to run on a cloud platform, for great experiences in shared rooms and spaces with easy access to hosted conferences

* Supported on Webex-registered devices only

Cisco Webex Room 70 prominent feature/differentiator

Bringing more intelligence to medium to large-sized rooms

The Cisco Webex Room 70 is video innovation in an easy to install all in one unit, bringing more intelligence and usability to your medium to large-sized team collaboration rooms. While others are still struggling to insert advanced features such as speaker tracking, wireless sharing, and 4K content into their high-end products, Cisco is already proliferating these innovations to meeting rooms of all sizes in a cost-effective and simple way. With the Room 70, Cisco is helping customers experience smarter meetings, enable smarter presentations, and create smarter room and device integrations. And when registered to Cisco Webex, additional cloud-based functionalities are enabled that enhance the user experience and team workflow as well as further simplifying deployment.

- **Smart meetings:** Powerful, integrated cameras deliver intelligent view capabilities, such as automatic framing and speaker tracking; automatic noise suppression reduces meeting disruptions
- **Smart presentations:** Dual screens, dual content sources, wireless sharing, and 4K content make for great presentations
- **Smart integrations:** People count for usage metrics and resource allocation; tight integrations with screens to enhance user interactions; APIs and macros allow meeting personalization
- **Registration flexibility:** Built for both cloud and on-premises deployment, protecting your investment
